Mobile Number: 03004496363

Personal Profile:

As a Dedicated and ambitious computer science student in seventh semester seeking opportunities to apply my technical skills and contribute to innovative projects. I am eager to leverage my education and experiences to pursue a rewarding career in technology. With a foundation in computer science principles and ongoing practical experience, I am driven to make a meaningful impact in the field. Focused on any task at hand and able to utilize existing test knowledge and experiences to come up with practical solutions and alternatives to testing processes. Presently looking to join a company that rewards hard work and offers good opportunities for career development.

STRENGTHS AND ABILITIES:

- Proficient in programming languages such as [Python, C/C++].
- Skilled in algorithm design and data structures, enabling efficient problem-solving.
- Familiar with database management systems and SQL, and Web application development as well.
- Capable of collaborating effectively in team environments and communicating technical concepts clearly.
- Quick Learner, good at Adapting new skills in no time. • Capable of delivering projects in time.
- Interest in MS Office.
- Surfing the internet and digging out the solution for computer and work-related problems.

EDUCATIONAL BACKGROUND:

- High Schooling from Army public school Bahawalpur, Pakistan (2018).
- Did my intermediate from Punjab group of colleges, Bahawalpur.(2018-2020).
- BSc Hons in Computer Sciences from Forman Christian College (Chartered University)

(Currently in 7th Semester).

1. EXPERIENCES:

1.Academic Projects:

Making GUI's and different Process scheduling and Synchronization Algorithms using the Operating System, and then AI's and using programming languages such as C/C++ for course projects.

2. Internships:

Went to schools and taught children and people about Technology and or anything. Schools and children who were not aware of the basic computer and other needs.

3.Coding Competitions:

Competitions are held in the university for our better learning and developing and enhancing our skills.

4.Leadership Roles or Group Projects:

Collecting everyone and organizing the people and working with them together and making sure everyone is doing the work done on time

5.Volunteer Work or Community Involvement:

Researching and going in depth of everything for bringing a betterment for the community services through computer networks.

PERSONAL SKILLS:

- Commercial awareness.
- Computing and technical skills.
- Analyzing and investigating.
- Action Planning and Decision Making.
- Developing professionalism.
- Interpersonal Sensitivity.
- Planning and Organizing.
